AUTO GAS equipment

LPG Mini KIT

We are designer, manufacturer and supplier of components and solutions for alternative fuels in the area of Gas Injection Systems automotive conversions.

From this catalogue you will learn about our range of products we have on offer.

FHT VERSUSGAS offers conversion kits for vehicles both for **LPG** as well as **CNG** fuel.

Main parts of LPG conversion KIT

V-Controller ECU

Standard VR-L reducer

FH02 injectors

High-power VR-L Super reducer

Mini KIT consists of main parts and accessories in various quantity and configurations **without** mounting hardware. Maxi KIT does not consist GAS tank. It is upon the user and vehicle parameters which type of tank can be installed. Using wrong mounting hardware or third-party accessories can result in life / health hazard or technical malfunction. FHT VERSUSGAS does not take the responsibility for it.

LPG Mini KIT

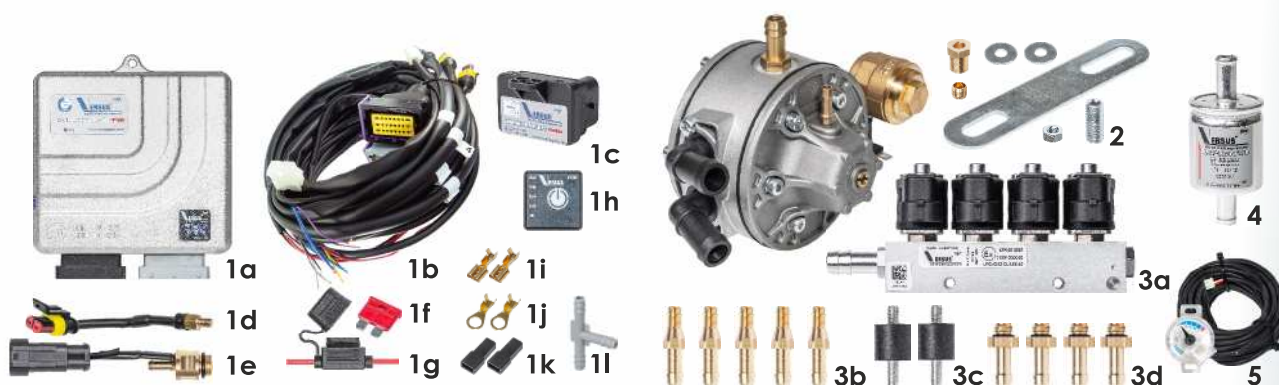

Gas conversion set for 4-cylinder engines

Product: V4LO/VRL/FH02-4/F1/PW

Cat. no.: 1LO/1/1/1/1

The most popular KIT dedicated to **4-cylinder** engines up to **200 HP** power. FH02-4 cyl injector body determines that total length of $\phi 5$ mm gas hose between inlet manifold nozzles and calibration nozzles should not exceed 20 cm. Please assure that there is enough space to install FH02-4 injector.

LPG Mini KIT

Gas conversion set for 4-cylinder engines

Product: V4LO/VRL/2XFH02-2/F2/PW

Cat. no.: 1LO/1/3/2/1

The most popular KIT dedicated to **4-cylinder** engines up to **200 HP** power. KIT dedicated to boxer type engines. 2 pcs of Injector FH02-2 cyl. are included. Those injectors can be installed close to the inlet manifold nozzles, and short distance between inlet manifold nozzles and calibration nozzles can be preserved.
